## Topics For Year 12 Half-Yearly 2010

| MATHEMATICS | EXTENSION 1 | EXTENSION 2 |
| :--- | :--- | :--- |
| Arithmetic \& Algebra | Inequalities with unknown <br> in the denominator | Complex Numbers |
| Plane Geometry |  | Graphing |
| Real Functions | Circle Geometry | Conic Sections |
| Differentiation | Sum and Difference <br> Formulas, Double Angle <br> Formulas, 't' Formulas |  |
| Trigonometry | Division of an Interval in a <br> Given Ratio |  |
| Quadratic Functions | Polynomials |  |
| Linear Functions | Parameters |  |
| The Parabola | Maximum and Minimum <br> Problems |  |
| Geometric Applications <br> the Derivative | Sequences and Series |  |
| Basic Arithmetic <br> Sequences | Approximating Solutions <br> for P(x) $=0$ |  |
|  | All Integration |  |
|  | Mathematical Induction |  |
|  | Trigonometric Functions |  |
|  | Exponential and <br> Logarithmic Functions |  |
|  | Inverse Trigonometric <br> Functions |  |
